

More than 20 EarthCam Spring Break Live Cams Also Viewable on iPhone or iTouch

March 5, 2010

EarthCam, the Internet's premier global webcam network, today put its annual Spring Break Cams in party mode from downtown Cancun, Mexico, and South Padre Island, TX to South Beach streets in Florida.

The 2010 Spring Break Cams, along with other exciting cameras, are available at www.earthcam.com and for iPhones and iTouch at Live Cams- EarthCam at <http://mobile.earthcam.com/iphone/livecams/>

The exciting " Spring Break" scene takes visitors from the hot nightspot center in downtown Cancun to surfer sweet spots such as Aliso Beach near Laguna, CA. **EarthCam** viewers will also enjoy sunbathers in Puerto Rico, as well as see the celebrants on the move in Myrtle Beach and on the streets of some favorite college scenes including streaming video of Bourbon Street in New Orleans.

The festive beach patrol includes sand and 'see" views of Bucuti Beach Aruba, Ocean Park Beach, Puerto Rico, both in live streaming video, Venice Beach, CA. Waikiki in Hawaii and more. Street cams in Key West, and Miami on Lincoln Road, St John and St Croix, VI among others, show the spring break scene from yet another angle.

EarthCam.com, the premier international network of live public access webcams, is recognized internationally as the leader in complete infrastructure services to manage, host and maintain live streaming public and private, password-protected network camera systems. The company delivers millions of images daily for business and industry, as well as federal, state and local government.

EarthCam's more than 13 years of experience includes developing products and software to maintain and manage thousands of applications. Clients include Paramount Pictures, New Line Cinema, Walt Disney Pictures, Clear Channel Communications, PBS, ABC, FOX, CBS, NBC, Weather Channel, Discovery Channel, CNN, MTV, Major League Baseball, NFL, This Old House, Coca-Cola, Sprint, Volkswagen, GE, Yahoo! and NASA. Clients in more than 1,500 cities in all 50 states and 46 countries rely on EarthCam webcam systems.
