

St. Regis Chicago Defines Skyline in New 4K Time-lapse

April 18, 2022

St. Regis Chicago, formerly known as Vista Tower, is one of the city's newest residential buildings. The tower defines a new edge to the city in Lakeshore East.

EarthCam has been working alongside Magellan Development Group since ground break in 2016 to document St. Regis Chicago from the ground up. The new 101-story luxury building will be the home to 393 condominiums and 192 hotel rooms. Watch the new 1.9-million-square-foot tower come to life in this time-lapse movie.
